

Demetri Economou

DIRECTOR

Demetri Economou is acutely aware of the challenges facing Texas businesses every day. With a practice spanning commercial, energy, labor and employment, and bankruptcy law, he is regularly on the front lines of disputes, both before and during litigation.

With nearly a decade advising general counsel and business leaders in the energy industry, Demetri brings the experience and resolve necessary to meet any legal challenge. He provides trusted advice to KRCL's upstream, midstream and oilfield services clients, including in high-dollar royalty litigation, lease interpretation and contract disputes, trade secrets litigation, anti-SLAPP / Texas Citizens Participation Act litigation, and oilfield equipment sequestration and collections. His practice includes trial and appellate work. In support of KRCL's *Chambers*-ranked bankruptcy practice, Demetri advises equipment financiers and banks in preserving and enforcing multi-million dollar security interests.

Demetri's other passion is representing employers and executives in employment law, counseling both energy and non-energy clients on unfair employment practices under the FLSA, FMLA, ADA, ADEA/OWBPA, and state employment laws, as well as handling special issues for reductions in force. His experience includes practice in state and federal courts and before administrative bodies (DOL, EEOC, TWC). Demetri also advises clients in drafting company documents, employee handbooks and policies, pay schemes, employment agreements, independent contractor agreements, offer letters, severance/termination documents and releases, and advises clients on the enforcement and defense of covenants not to compete, non-solicitation clauses, assignments of invention and other trade secrets and restrictive covenants.

He has been selected to the Super Lawyers Rising Stars list for the past four years, 2017-2020.

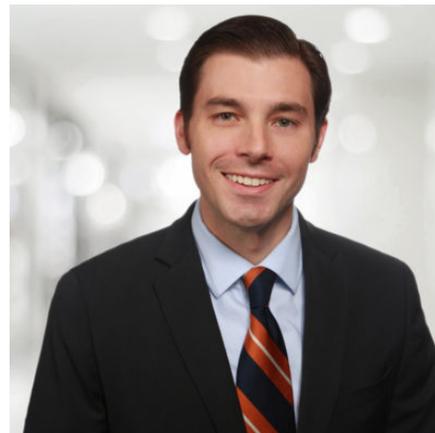

Demetri is a leader on KRCL's Project Make-A-Difference Committee, acting as liaison for KRCL's support of bridge-employer programs for teens and young adults with autism and autism-spectrum disorders. This is a focus near and dear to his heart.
